wrought by American culcuprise cince the dawn of the great longth or the great cost of this real that gives consequence to the event, but it is to become the permanent costs removed that already checker the great systems of railroad that already checker the North on one cide and the South on the other.

Until this flink was stretched across Kenlucky and Tennessee there was no direct railroad connections between the North and South. This national thoroughfare unites as with item bands, and the swift hierocourse it will establish will convert our sectional estrangement into as cordial intimeory as the frest commerce of door neighbors. But, bandening and gratulation over, what has already been achieved in not the south on the two that are the research of the connected delice and the swift hierocourse it will establish will convert our sectional estrangement into as cordial intimeory as the frest commerce of door neighbors. But, bandening and gratulation over, what has already been achieved in not the same property in her heaviful heart.

What are you frowning at, dear faither reader? "Moonahing!"

We beg pardon: 'tis our subject.

Wa love the eweet god of eleep, Morpheur, Samuus, or whatever uama ha is known by with passing to accuse from this our first great step. sectional estrangement into as corduct intumery as the frest commerce of door neighbors. But, banqueting and gratulation over, what has slready been achieved in rot the rational employment of a programing people. Let us rather lock deliberately about as and determine, as best we may, how and by what means we can still enhance the fature themsings to accrue from this our first great step. The Luxisville and Nashville Railroad, as a commercial and progressive instrumentality, is to cerve a twofold end. As a simple channel of intercommencation between the two grand geographical divisions of our repatile, it is to fil a high and momentous aim. It will terve, as we hape, a material agency in obliterating sectional harrierate frateraal brotherhood and reciprocal commerce, and cumply that constant and ready facility of intimate, recial contact which so much conduces to a common sympathy and Fiberal attachment between communication to this noble purpose will have been enfalfilled upon the completion of the main thoroughfare, which almost fuser into one common.

The best conception we can have of practical perrailroad tracks which traverse the country from one portant emperium of business to another; secondsuch auxiliary railroade as, by peretrating the ountry, rendar the first as extensively accasable as possible; thirdly, such an extension of tempikes as will bring the largest possible unmber of produ-cers and consumers into available relation with railroads, and fourthly, when these cease to be practicable the highest degree of improvement in the common thoroughfares of the country that is attainable. When this dasideratem has been expliced, we have a system of land transportation almost ar perfect as the river cystem formed by the Missieippi and its numerous tributaties. This may not be attainable, or even a near approximation to it; but cartainly to effect the nearest to it that is attain-able would form a most worthy aim for the benefactors of our generation. Already this idea to some extest is being practically exemplified in the tural districts upon an almost equal virtue. ting with the city gardans.

The work on this improvement was undirected to being presented in the street of wa und retailed being prosecuted with vigor and efficiency at present. As a feeder to the Louisvilla and Nashville road, we attach great importance to the Barren county branch, at d shall watch its pr gress with constant solicitude. It is clear to car mind that the good results to follow the construction of the Louisville and Nashville railroad will be greatly enhanced by the number and extent of m ter improvements superinduced by its construction.
These cardations must, in a large dagree, datermine the basiness to be done by the main road, as well as the amount of valuable commerce to be concentrated et each city termines. These being our views, we hall with great satisfac ion every indication wa per cargoes are to reach the Louisville and Nashville ad, and through this our enterprising cities, are being multiplied.

The San Francisco Herald of August 15 has the following account of a ringular accident to the Overland Mail:

At the Minsion Station on the Gila river, thirty miles above Fort Yama, the coach with aix horser was started from the station when the leader, making a quick turn to the right, pinunged into a well some swenty-five feet deep, carrying with them the horsee in the "swing." The wheel horses were only asved by the lead bare catching across the well-opening. The four horsee were so mained by the fall that a lautern was lowered into the well and they were shot to put them out of missery. The mail was detarined several hours by this accident. The concregation of Grace Chroch, San Francisco, have determined to creek the fairst house for divines wenthip on the Pacific coast.
